

NEW ALBANY

NURSING AND REHABILITATION

At New Albany Nursing and Rehab, we realize some residents require specialized services to meet their individual psycho-social needs. For this reason, we created The Harbor Memory Care Unit at New Albany Nursing and Rehab, a specialty care unit for patients with dementia and dementia related diseases.

The Harbor is designed to improve the quality of life for residents who have unique psychosocial needs beyond those of our traditional geriatric population. Our goal for the unit is to maintain as much independence as possible for each resident in a structured, comfortable, and secure environment.

The Harbor is dedicated to improving and maintaining the behavioral health and well being of the seniors in the communities we serve.

COMPASSION & *Care!*
